TEC to Host 15th Annual Accredited TEC Summer Institute for Educators

*Hands-on Professional Development for Educators Featuring
CAD, Laser Technologies and Rapid Prototyping*

Concord, NH – April 10, 2009 -- Tech Ed Concepts, Inc. (TEC), North American Academic Distributor of 3D Engineering and Manufacturing Software, Hardware and Curriculum Programs, is excited to host its 15th Annual TEC Summer Institute (TSI) this July 8-10th at the Grappone Conference Center, Courtyard Marriott in Concord, NH.

Exclusively designed for Educators, TSI provides 24+ instructional hours of hands-on training, classroom materials and innovative curriculum designed to assist technology educators by increasing their knowledge of CAD, Laser Technologies and Rapid Prototyping. The 3-days of hands-on training are taught by certified professional instructors. Course offerings feature Envisioneer™ 3D Architectural, Interior & Landscape Design software, KeyCreator™ CAD/CAM software, Laser Technologies with GCC Lasers as well as Rapid Prototyping with Z Corp. 3D Printers. Educators who participate also have the opportunity to earn graduate credits accredited through the University System of New Hampshire.

“An important component of TEC Summer Institute is the interaction between Educators from across North America,” states Richard Amarosa, Founder and President of TEC. “Instructors are able to collaborate, network and take home new classroom and curriculum ideas exchanged with fellow attendees. As a former educator, I’ve witnessed how valuable this exchange can be.”

TSI for Educators has been featured in *Tech Directions* Magazine as one of the “Terrific Ten Training and Certification Programs.” For additional information regarding the 15th Annual Accredited TEC Summer Institute for Educators, contact TEC at 1-800-338-2238, visit www.TECedu.com or e-mail: info@TECedu.com. On-line registration is also available on our website.

About Tech Ed Concepts, Inc. – TEC, Inc. is the North American Academic Distributor of Best “In Class” Envisioneer™ 3D Architectural, Interior & Landscape Design software, KEYCREATOR™ Mechanical CAD software, DataCAD® A/E/C software, and SURFCAM® Computer-Aided Manufacturing software. The company also offers Z Corp. 3D Printers, LaserPro® Laser Engravers, and TEC Cutting Edge Milling and Turning Centers, all specifically designed to teach manufacturing and pre-engineering programs with an emphasis on real-world industrial production and manufacturing. The Educators’ Choice for Engineering Solutions since 1987, TEC has established itself as a trusted one-stop academic resource offering exclusive academic pricing, teacher training, textbooks, workbooks, curriculum and classroom support materials.
