

3D Architectural, Interior & Landscape Design Software

Envisioneer is an **affordable** solution to help you **attract students** and engage their interest in a fun, creative way.

Give your students the power to create professional, photo-realistic 3D models, quickly and easily.

A friendly, user interface, powerful wizards, and intuitive tools help students achieve success and promote their desire to advance their learning.

3D Stereo viewing.

Slip on a pair of 3D glasses and students feel like they're actually at the site with every detail popping out. Envisioneer is the first 3D design product to offer real-time navigation in 3D stereo mode.

Optimal for Student Success

- User friendly interface makes learning fun and creative

Listen to What Other Educators are Saying about Envisioneer™!

"As a Tech-Ed Teacher of 27 years working in both middle and high school, I have used many house drawing programs, both store and from vendors, (and) I have found that Envisioneer is the best I have ever used. It is made for students of all grades."

- Timothy J. Josti, Sr.
- North Brookfield Middle and High School, MA

"I just finished through pg 15 of the "Introducing" text by Dr. Nasman...can I just say WOW?! This is fantastic...the software and how easy it is, yet it is so powerful and allows you to do so many different things. I really can't believe it. I won't be doing my job unless I can get this for next year. This is fantastic."

- Drew Romanowski
- Ravena Coeymans Selkirk High School, NY

"You have a quality five star product..."

- Victor Stefan
- Lake Middle School, OH
