# The DataCAD 12 Project Book

## Chapter 1

<b>Beginning Architectural Drawing .....</b>	<b>1</b>
Starting a New Drawing .....	2
Selecting Menu Options .....	8
Turning On Walls .....	10
Drawing and Erasing Lines .....	14
Creating Rectangular Polygons .....	17
Adjusting the Display .....	21
Adding a Door .....	23
Adding Windows .....	26
Quitting DataCAD .....	29
Review and Important Points .....	29
Practice Drawings .....	30

## Chapter 2

<b>Adding Furniture and Text .....</b>	<b>33</b>
Loading a File .....	34
Adding Furniture (Using Symbols) .....	35
Creating and Naming Layers .....	41
Shortcuts .....	44
Adding Text .....	45
Moving Text .....	48
Review and Important Points .....	52
Practice Drawings .....	53

## Chapter 3

<b>3D Drawing .....</b>	<b>57</b>
Creating 3D Views .....	60
Using the Viewing Sphere .....	62
Hidden Line Removal .....	64
Moving the Pictorial Image .....	67
Changing Enlargement Factors .....	70
Saving the Drawing .....	74
Creating Perspective Views .....	75
Review and Important Points .....	81
Practice Drawings .....	82

## Chapter 4

<b>Ferd's Motel Room, Phase 1 .....</b>	<b>85</b>
Creating and Naming Drawing Layers .....	86
Creating Walls.....	88
Setting Snap Size.....	89
Adding Plumbing .....	90
Adding Interior Walls .....	93
Cleaning Up Wall Intersections .....	96
Review and Important Points.....	101
Practice Drawings .....	102

## Chapter 5

<b>Ferd's Motel Room, Phase 2 .....</b>	<b>105</b>
Adding a Standard Door.....	107
Centering a Door .....	109
Centering and Cleaning a Wall .....	111
Adding a Wall Opening .....	112
Adding a Bi-fold Door .....	113
Adding a Sliding Door .....	114
Creating a New Drawing File .....	116
Review and Important Points.....	116
Practice Drawings .....	117

## Chapter 6

<b>Ferd's Motel Room, Phase 3 .....</b>	<b>119</b>
Adding Furniture .....	120
Changing the Symbol Scale .....	125
Using Dynamic Rotation.....	126
Changing the Z-Offset.....	127
Review and Important Points.....	132
Practice Drawings .....	133

## Chapter 7

<b>Ferd's Motel 8, Mirror &amp; Group .....</b>	<b>137</b>
The Mirror Function.....	139
The Rotation Function.....	145
Review and Important Points.....	149
Practice Drawings .....	150

---

## Chapter 8

<b>Editing and Dimensioning.....</b>	<b>153</b>
Erasing Layers.....	154
Removing a Door .....	155
The Stretch Function.....	157
Adding Dimensions.....	158
Design Changes.....	166
Review and Important Points .....	167
Practice Drawings .....	168

## Chapter 9

<b>3D Modeling, Ferd City .....</b>	<b>171</b>
Changing the Z-base .....	173
Creating 3D Blocks .....	173
The Copy Function.....	174
Creating a Dome .....	176
Adding Block Buildings.....	179
Review and Important Points .....	183
Practice Drawings .....	184

## Chapter 10

<b>3D Modeling, Using Macros .....</b>	<b>189</b>
Using the AEC_MODL Macro .....	193
Fixing Wall Cutouts .....	197
Adding a Roof.....	199
Review and Important Points .....	205
Practice Drawings .....	206

## Chapter 11

<b>Using the Framing Macro (Framelt) .....</b>	<b>209</b>
Creating Wall Framing.....	210
Adding Openings .....	214
Editing a Frame.....	217
Adding Floor Framing to Your Plan. ....	221
Roof Framing .....	227
Review and Important Points .....	230
Practice Drawings .....	231

## Chapter 12

<b>Using Saved Views and the Shader .....</b>	<b>233</b>
Moving the Playhouse to 0,0.....	234

# The DataCAD 12 Project Book

---

Creating a Slab .....	235
Using GoToView .....	237
Using the Shader Function .....	241
Adding a Street Lamp .....	248
Adding Background Images.....	250
Adjusting Model Colors .....	251
Review and Important Points .....	255
Practice Drawings .....	256

## Chapter 13

<b>Detail Drawings .....</b>	<b>259</b>
Using the Layer Manager .....	260
Creating a 2D Detail Drawing.....	262
Changing Line Type.....	264
Adding a Circle .....	265
Adding Hatching .....	266
Associative Hatching .....	266
Non-Associative Hatching .....	269
Review and Important Points .....	272
Practice Drawings .....	273

## Chapter 14

<b>Typical Wall Section .....</b>	<b>275</b>
Selecting a Line Type.....	277
Trimming Lines.....	282
Adding Blocking .....	283
Adding Insulation.....	284
Adding the Floor .....	287
Adding Text .....	291
Review and Important Points .....	293
Practice Drawings .....	294

## Chapter 15

<b>My Old House .....</b>	<b>297</b>
New Drawing and “Smart” Settings .....	299
Set the Input Mode .....	299
Establish the Layers .....	300
Creating the First Floor Slab.....	300
Setting Up the First Floor Exterior Walls .....	304
Drawing the Exterior Walls .....	308
Drawing the Interior Walls.....	310

---

Inserting the Smart Windows.....	315
Inserting the Smart Doors .....	320
Adding the Second Floor .....	325
Adding the Roof.....	331
Adding Stairs.....	337

## **Chapter 16**

<b>Creating and Modifying Symbols .....</b>	<b>343</b>
Create a 2D Symbol .....	344
Create a 3D Symbol .....	350
Explode a Symbol .....	358
Placing Symbols Exploded .....	359
Exploding Symbols After Placement.....	360
Redefining Symbols .....	360
Replacing Symbols.....	362
Using the Symbol Editor.....	368
Permanently Changing Symbols on the Hard Drive.....	373
Review and Important Points .....	374
Practice Drawings .....	375

## **Appendix A**

<b>The DataCAD 12 Project Book Quick Keys .....</b>	<b>379</b>
---	------------

## **Appendix B**

<b>Using Selection Sets and Masking.....</b>	<b>381</b>
The Selection Sets Menu.....	382
The Mask Function.....	387

## **Appendix C**

<b>Using Object Viewer .....</b>	<b>389</b>
Setting the DataCAD Rendering Settings .....	393
Assigning Materials .....	396
Using the Object Viewer.....	397

## **Appendix D**

<b>Input Methods and Identify/Set All .....</b>	<b>403</b>
Drawing With Relative Cartesian .....	404
Drawing With Absolute Cartesian .....	407
Drawing With Relative Polar.....	408
Drawing With Absolute Polar.....	410
Drawing With Direction/Distance.....	413
Using Identify / Set All .....	414
