Kubotek KeyCreator 8 Single Workstation With USB SIM Installation

Tech Ed Concepts, Inc. Tech Support 800-338-2238 Email: <u>techsupport@tecedu.com</u>

Installing KeyCreator 8 PROGRAM INSTALLATION.

Insert the KeyCreator CD or DVD into your CD-ROM or DVD Drive. The AutoRun Feature should begin and display the splash screen below. Select **Install KeyCreator**

Note: The USB SIM should not be plugged in at this time.

Note: If AutoRun does not start or you do not see the above screen, please click my Computer, right-click on your CD-ROM or DVD Drive and Click Explore from the pop-up menu. Select AutorunPro.exe.

The Installation Wizard starts. Click Next.

The next screen (Figure 1-2) will be your KeyCreator License Agreement. You must agree to these terms in order to proceed. Click *I accept the terms in the license agreement*. Click **Next**.

This will bring you to the screen (Figure 1-8) where you will begin installation. Click Install.

🖁 Kubotek KeyCreator with Catia V5 Translators 8.0 - InstallShield Wizard 🛛 🛛 🔀
Ready to Install the Program The wizard is ready to begin installation.
Click Install to begin the installation.
If you want to review or change any of your installation settings, click Back. Click Cancel to exit the wizard.
InstallShield

Figure 1-8

You will then see the screen in Figure 1-9 and the Status Bar will give you the status of the installation process until the Install is complete.

Figure 1-9

Note: This process will take a several minutes.

Once the installation is complete you will see the screen as shown in Figure 1-10. Click **Finish**.

Figure 1-10

Adding the License File

Locate the <u>Companion CD-ROM</u> that came with your KeyCreator Package. (You may also have been emailed the license file).

Your License File is located on this CD and must be copied to your KeyCreator 8 Folder.

This is a simple copy and paste operation and there is no need to open the license file with any program.

Put the CD into the correct Drive. Click on My Computer on the Desktop or in the Start menu.

Click on your CD-ROM Drive. See Figure 2-1.

Figure 2-1

Right click the file called license.lic to highlight it.

Select Copy from the Windows Menu Bar.

Click the Back arrow twice to return to the My Computer main screen and then double click on your C: Drive (or where you installed KeyCreator).

Double click on the Folder "KeyCreator 8" to open it. Select **Paste** from the Windows Menu Bar.

Installing the USB SIM Drivers

At this time plug in the USB SIM and see if Windows recognizes it as new hardware and identified it. If Windows does not automatically recognize new hardware when you plug in the USB SIM you may need to install the Sentinel Drivers.

Unplug the USB SIM from the computer.

Note: This installation should only be done with the USB SIM NOT PLUGGED IN the Computer.

If the Sentinel Installer does not launch during product installation it can be accessed from the CD: Load the KeyCreator 7 CD. At the Screen in Figure 3-1 select **View Additional Options**

Figure 3-1.

When the Sentinel Protection Installer dialogue appears click Next (Figure 3-3)

Figure 3-3

Follow the installation prompts to install the drivers.

Click **Finish** after the Installation is complete.

NOTE: PLUG IN THE USB SIM NOW

Starting KeyCreator 8

Start KeyCreator from your Start menu. Start>KeyCreator 8 > KeyCreator 8. You may also create a desktop icon.

You will receive a message stating you have an educational license. Click OK.

The Tip of the Day will display listing new features. You can read the tip and then click OK.

You should now be able to run KeyCreator 8. . See Figure 7-1. You can access some product tutorials by clicking Help, Tutorials from the Menu Bar.

Note: To view all of the active icons it is recommended to run your screen resolution at 1024 x 768 and to use the file 1024 x 738.wsp as your initial workspace. Click File, Workspaces, Open Workspaces. Click the file 1024 x 768.wsp and click Open. To use this file each time KeyCreator opens click Tools, Options, then the Startup tab. Click the button to the right of the listed Workspace file to Browse to the list. Select the same workspace file as above, 1024 x 768.wsp and click Open. Then Click OK.
